- According to the Guidance for Employers updated on March 3, 2020, by the Los Angeles County Department of Public Health, if there is increased community transmission of COVID-19, businesses/organizations should have a plan and be prepared to take additional actions, if recommended by Public Health. This includes actions to protect employees, to suspend operations, and to “modify, postpone, or cancel large conferences or events.” However, there has been no such recommendation issued by Public Health up to this point.

- The County of Los Angeles declared on March 4, 2020, a local and public health emergency in response to increased spread of coronavirus and 6 additional cases in the County. Along with their enhanced efforts, the County announced personal preparation measures noting people should plan “for the possibility of more significant social distancing requirements should there be broad community spread.” Such measures include “planning for the possibility of business disruptions, school closures, and modifications/cancellations of select public events.”

- On March 9, 2020, the Los Angeles County Department of Public Health announced that one of the two additional cases of COVID-19 in the County is “the first possible case of community transmission in LA County.”

<http://publichealth.lacounty.gov/phcommon/public/media/mediapubhpdetail.cfm?prid=2258>

- On March 10, 2020, the Los Angeles County Department of Public Health announced that with the March 9, 2020 "discovery of community spread," there will be more cases of COVID-19 in the County. The Director of Public Health stated that the Department is "urging people with underlying health conditions, pregnant women and the elderly to practice social distancing by avoiding non-essential travel, public events, community gatherings, and indoor venues."
